

Deliverability Audit

SPF · DKIM · DMARC · Smartlead · 1% Reply Rule

GTM PLAY GUIDE · RASUL SHAIKH · 2026

WHAT IT CHECKS

DNS authentication on every sending domain. Smartlead inbox health: warmup status, SMTP/IMAP, blocks. Campaign performance: reply rate and bounce rate per campaign. Flags anything below 1% reply after 200+ sends.

COMMANDS

```
python audit.py domains --domains send1.co,send2.co --out ./audit
python audit.py full --out ./audit # needs SMARTLEAD_API_KEY
```

OUTPUT FILES

auth.csv — per-domain SPF/DKIM/DMARC scores
inboxes.csv — fleet health
performance.csv — campaign metrics with flags
report.md — action items

N8N WORKFLOW

Import n8n/weekly-deliverability-audit.json. Runs every Monday. Pulls Smartlead inboxes, checks DNS via Google DNS API, flags low-reply campaigns, posts summary to Slack.

WHEN TO RUN

Reply rate drops >30% week-over-week. Bounces spike above 2%. Before scaling volume. Monthly hygiene. Taking over a new Smartlead account.
